Academic program and course

2024

the introduction:

The educational program is considered a coordinated and organized package of academic courses that include procedures and experiences organized in the form of academic vocabulary, the main purpose of which is to build and refine the skills of graduates, making them qualified to meet the requirements of the labor market. It is reviewed and evaluated annually through internal or external audit procedures and programs such as the external examiner program.

The description of the academic program provides a brief summary of the main features of the program and its courses, indicating the skills that students are working to acquire based on the objectives of the academic program. The importance of this description is evident because it represents the cornerstone of obtaining program accreditation, and the teaching staff participates in writing it under the supervision of the scientific committees in the scientific departments.

This guide, in its second edition, includes a description of the academic program after updating the vocabulary and paragraphs of the previous guide in light of the latest developments in the educational system in Iraq, which included a description of the academic program in its traditional form (annual, quarterly), in addition to adopting the description of the academic program circulated according to the book of the Department of Studies T.M.3/2906 on 5/3/2023 regarding programs that adopt the Bologna Process as a basis for their work.

In this area, we can only emphasize the importance of writing descriptions of academic programs and courses to ensure the smooth conduct of the educational process.

Concepts and terminology:

Description of the academic program:The academic program description provides a brief summary of its vision, mission, and objectives, including an accurate description of the targeted learning outcomes according to specific learning strategies.

Course description:It provides a necessary summary of the most important characteristics of the course and the learning outcomes that the student is expected to achieve, demonstrating whether he has made the most of the learning opportunities available. It is derived from the program description.

Program vision:An ambitious picture for the future of the academic program to be an advanced, inspiring, motivating, realistic and applicable program.

Program message:It briefly explains the objectives and activities necessary to achieve them, and also identifies the program's development paths and directions.

Program Goals:They are statements that describe what the academic program intends to achieve within a specific period of time and are measurable and observable.

Curriculum structure:All courses/study subjects included in the academic program according to the approved learning system (semester, annual, Bologna track), whether it is a requirement (ministry, university, college, or scientific department), along with the number of study units.

Learning Outcomes:A compatible set of knowledge, skills and values that the student has acquired after successfully completing the academic program. The learning outcomes for each course must be determined in a way that achieves the program objectives.

Teaching and learning strategies: They are the strategies used by the faculty member to develop the student's teaching and learning, and they are plans that are followed to reach the learning goals. That is, it describes all curricular and extracurricular activities to achieve the learning outcomes of the programme.

Academic program description form

University Name:university.....

the college/Institute:Alnoor university college

scientific department:to divide..Arabic

Name of the academic or professional program:Bachelor's degree in Arabic language

Name of the final certificate:Bachelor's degree in Arabic Language

See the program .1

The department aspires to strengthen the faculty of creativity among students of the Arabic language, so its use is not limited to general life purposes, but extends beyond it to raising generations of creators in all linguistic and literary fields.

Program message .2

The department aspires to prepare a generation that is scientifically and culturally proficient, connected to the nation's heritage, keen to advance the language in speech and writing, capable of strengthening its position among the languages of the civilized world. The language is capable of developing and improving its capabilities to be qualified to transmit and develop new ideas.

Program Goals .3

General statements that describe what the program or institution intends to achieve

Introducing the student to the sciences of the Arabic language and its literature to provide students with the skills of teaching the Arabic language in middle and middle schools, teaching the student how to read and understand heritage books, and introducing the student to the importance of the Arabic language as a living language.

Program accreditation .4

Does the program have program accreditation? From which side?
There are no standards for programmatic accreditation for humanities departments

Other external influences .5

Is there a sponsor for the program?

Ministry of Higher Education and Scientific Research – Al Nour University College

Program structure .6
